MIRA INFORM

THE FIRST CHOICE FOR WORLDWIDE CREDIT REPORTING

MIRA INFORM PROVIDE REPORTS ON ALL COUNTRIES THROUGHOUT THE WORLD

In these areas Mira Inform have a network of exclusive local sources who collect information via varying methods, and where possible, outside sources such as financial informants and registries.

In many countries balance sheets are not publicly obtainable and the amount of information available to report depends on the co-operation of the subject company and their reliability.

Providing you with comments on local conditions and market information, as well as company balance sheets, a Mira Inform report presents you with a more complete picture of the firm's credit history - allowing you to make a more informed decision on investing or working with them.

MIRA INFORM Resources

Ensure you access the most accurate and up-to-date information available

For Each Enquiry Our Exclusive Local Sources Will Carry Out The following Investigations :

- Interview the subject company to obtain a statement thus ensuring that the client's identity is not revealed
- Check with local banking and financial sources regarding the company's reputation and financial integrity
- Search at Companies Registries, Chambers of Commerce and other available public record offices for any filed information regarding the subject company
- Cross check the validity of the information provided by the subject with data obtained by outside sources

Analysis by Our Experienced Team :

- Translate, collate and check all information received from our local sources
- Compare the data against any existing information **MIRA INFORM** has on file
- Send a questionnaire requesting a balance sheet and other background information as subject companies may not be willing to share this information with perceived local competition.

MIRA INFORM includes all information received on the subject, adding additional field as and when required, to the standard report. This additional information adds to the overall picture of the company and answers additional requests from clients.

MIRA INFORM Reports provide you with :

Accurate and Up-to-Date Information

- Access the most difficult to reach regions
- Fresh, up-to-date investigations are conducted for every one of your enquiries
- All information carefully researched both by our local sources and our experienced Team so any anomalies can be spotted

A More Comprehensive Picture

- Unlike most credit reporting agencies, all information received on the subject company is included in our reports providing the answers to any special questions and giving you more inclusive background information
- We check with local financial records as well as the company themselves, to ensure a full, accurate picture of their financial history is given
- We provide an informed maximum overall credit assessment from the information obtained and our experience in this sector

A Rapid Service in a Range of Formats

- Our exclusive local sources access accurate information directly and more rapidly than our competitors
- Our Superflash service delivers this information to your desk within 72 hours
- The XML format means the information will be automatically generated into your own format
